Hello CHARG Participants,

Please see below for key takeaways and links from our October [CHARG](#) forum. We hope to see you on December 11th for our next one!

- **Bridgeview Resource Center**

Damion from [Bridgeview Resource Center](#) shared about how they operate as a resource and community hub. Bridgeview Resource Center is a safe space for families to learn about, and connect with, employment, education and health resources and supports that promote self-reliance. They are committed to equity, inclusiveness and respect. They, and their Resource Center partners, aim to help Clark County families thrive.

- **SWACH/HLC**

We had a big update from the [Southwest Washington Accountable Communities of Health \(SWACH\)](#). See their slides (attached) for more information about what has been going on with Medicaid transformation demonstration, the care coordination hub, and the [Healthy Living Collaborative](#).

- **Battle Ground Health Care**

[Battle Ground Health Care](#) is a 501c3 nonprofit group that is a community and faith based organization. Many local churches, businesses and individuals within our community have provided goods, services, and many hours of volunteer time because they care about their neighbors and want to serve those in need. They want to improve the medical and dental health of our community, reduce the costs of emergency room visits, and improve the quality of life of many of our neighbors. They provide free chronic medical care and limited dental services.

Sue Neal | skneal@bghealthcare.org

- **Delta Direct Care**

[Delta Direct Care's](#) mission is to provide quality, responsive and affordable primary care to our community utilizing the [Direct Primary Care \(DPC\) model](#). This model is intended to give you and your family direct access to a doctor you know and trust.

Dino Ramzi, MDCM, MPH spoke to CHARG about their medical model (which is based not on insurance, but uses a monthly subscription for primary care) describing how it can be better, more convenient, and less expensive, without the complicated bureaucracy of health insurance.

info@deltadirectcare.com

- **New Heights Clinic**

The [New Heights Clinic](#) describes itself as a church-based health clinic for the underserved needing medical and dental care. They are a free clinic that serves people with medical and dental needs who are unable to obtain care because they have no medical or dental insurance and have real difficulty paying for care.

Diane Dunlap, RN, BSN | Clinic Manager | ddunlap@newheights.org

- **Transportation: The Vine bus service is expanding!**

See attached Mill Plain Fact Sheet for details about how The Vine is expanding their service on that critical roadway.

- **Amerigroup local connection: LeeAnn O'Neil**

Although she didn't present, LeeAnn O'Neil of [Amerigroup](#) attended most of this forum. She is a representative for Amerigroup that is located here in our region, and invites your questions and connection.

- **Molina Healthcare of Washington announces the Molina Community Innovation Fund**

In 2000, Molina Healthcare began providing government-funded health care here in Washington with a commitment to improve the health of the individuals, families and communities they serve. They are now introducing the Molina Community Innovation Fund. Starting in 2019, Molina will invest up to \$1 million annually, for 3 consecutive years (2019 - 2021), in innovative community-based pilots and programs that increase access to health-related services for IMC Medicaid beneficiaries in the state.

In the attached FAQ PDF are answers to questions you may have about this. For complete details go to www.MolinaHealthcare.com/MolinaFund or contact MolinaFundSupport@MolinaHealthcare.com.
